Docket: Utah 2014 General Rate Case; Docket No. 13-035-184

Re: Office Comments on Division's Request to Obtain a Copy of the Commission's GRC Model

Background

On October 16, 2014, the Division of Public Utilities (Division) filed a memo with the Utah Public Service Commission (Commission) requesting an electronic copy of the General Rate Case (GRC) model that Commission Staff developed internally to evaluate Rocky Mountain Power's (Company) GRC Application and testimony filed by intervening parties. On October 23, 2014, the Commission published a Notice of Filing and Comment Period that allowed interested parties to respond to the Division's request by November 14, 2014.

Comments

The Office supports the Division's request for the GRC model and we similarly request an electronic copy of the model. The Office would also like to receive all supporting model specifications and documentation (if available).

The Office appreciates the Commission publishing a Notice of Filing and allowing parties time to respond to the Division's request. The Commission may want to direct the Division and interveners to copy the entire the service list on future communications pertaining to a docket, even if the docket is closed.
