## ACTION REQUEST RESPONSE

**To: Public Service Commission**

From: Division of Public Utilities  
Chris Parker, Director  
Energy Section  
Artie Powell, Manager  
Doug Wheelwright, Technical Consultant  
Eric Orton, Utility Analyst

Date: June 3, 2014

Subject: Action Request in Docket 14-031-T01, Mt Wheeler Power Co. Inc.

### ISSUE:

On May 27, 2014, Mt. Wheeler Power Co. Inc. (Mt. Wheeler) submitted to the Utah Public Service Commission (Commission) for acknowledgement and approval, an additional tariff rate. This new rate is entitled Large General Service-Net Metering (LGS-NM). This is the Division's response to the Action Request addressing that request.

### RECOMMEND ACKNOWLEDGEMENT:

The Division recommends the Commission acknowledge Mt. Wheeler's LGS-NM tariff rate and make it effective May 13, 2014.

### DISCUSSION:

Mt. Wheeler's LGS-NM is a rate addressing large net metering customers that derive their energy using a renewable source such as: "a fuel cell or driven by renewable energy derived from wind, sun, or water and must be located on the Customer's premises." This new tariff rate is designed to have the LGS-NM customer provide service that can be seamlessly integrated into

Mt. Wheeler's grid and assigns the costs and risks for the large net metering investments and infrastructure to be borne by the entity requesting the service and not by the other customers.

The Division recommends the Commission acknowledge and approve Mt. Wheeler's LGS-NM tariff rate with an effective date of May 13, 2014 and make it available for public inspection.

CC: Randy Ewell, General Manager, Mt. Wheeler Power Co.
