Attention: Gary Widerburg
Commission Secretary

Re: Demand-side management report pursuant to Commission order in Docket No.
09-035-T08

In its order in the above referenced docket dated August 25, 2009, the Public Service Commission (“Commission”) approved the Phase I stipulation agreed to by parties in that docket and filed with the Commission on August 3, 2009. As specified in the stipulation, Rocky Mountain Power (“Company”) is required to provide to the Commission and Advisory Group on a semi-annual basis a Utah DSM tariff rider balancing account analysis similar to that originally provided by the Company in Advice No. 09-08. This analysis is to include historical and projected monthly DSM expenditures, rate recovery and account balances; as well as, historical and projected monthly DSM expenditures by program, Schedule 193 revenue and self-direction credits. The DSM balancing account analysis provided as Attachment A reflects actual results through June 2014 and projects Utah DSM expenditures from approved programs and Schedule 193 revenues through December 2015.

The analysis shows an under collection as of December 2015. The Company will confer with the Utah Steering Committee on appropriate actions to address the under collection.

An original and five (5) copies of Attachment A are provided with this filing.

It is respectfully requested that all formal correspondence and staff requests regarding this matter be addressed to:
