Dear Public Service Commission-

We are grateful to be part of the Blue Sky program. In my religious tradition, conservation of precious resources is a religious mandate and we believe that solar energy provides numerous benefits to everyone.

I know you have initiated a cost-benefits study in this area and I hope that solar energy will be given a full and fair assessment as you go forward. I do not think RMP should be the only voice that is heard in this area.

Please consider a decision that will benefit all ratepayers and the public in Utah.

Thanks for listening.

Very Truly Yours,

Rabbi Jim Simon
