BEFORE THE PUBLIC SERVICE COMMISSION OF UTAH

In the Matter of the Investigation of the Costs and Benefits of PacifiCorp's Net Metering Program	DOCKET NO. 14-035-114 UAE Reply Comments Regarding Scope of Proceedings
--	--

The Utah Association of Energy Users (UAE) files these comments in reply to comments filed by other parties in this docket on February 6, 2015, regarding the proper scope of these proceedings. Specifically, UAE submits that this docket should examine costs and benefits of both residential and non-residential net metering programs.

UAE has not yet determined the positions it may take in this matter, or even whether it will intervene. However, UAE disagrees with those who suggest that this docket should be limited to an evaluation of costs and benefits of residential net metering only. UAE submits that Utah Code Ann. § 54-15-105.1 (2014) contemplates a determination of costs and benefits of the net metering program generally, necessarily including non-residential net metering. UAE respectfully submits that this docket is the most appropriate forum for an evaluation of costs and benefits of both residential and non-residential net metering programs.

DATED this 20th day of February 2015.
