Request (Closed): Subject: Regarding the proposed raise of fees on solar customers Dear Officials, After three years of negotiating with my local HOA, I finally gained approval to install solar panels on my house this past month. Now I am hearing about a proposed rate change from Rocky Mountain Power that could cause a significantly negative impact on the investment in my property and local environment. I would ask for a sincere, independent, and transparent to the public cost-benefit analysis be performed before approving or allowing any such rate hikes for solar customers. Sincerely, Eric Hansen Concerned Constituent ehansen9@gmail.com

Thank you.

Subject: Public Service Commission

Request (Closed): Dear Governor Herbert, On November 9, Rocky Mountain Power filed a request before the Public Service Commission to raise rates on rooftop systems. The fees are among the highest proposed by any utility around the nation on rooftop solar customers. If imposed, the fees would effectively end the growth of the rooftop solar and devastate the solar industry in Utah. The solar industry provides almost 4000 jobs in the state and hundreds of millions of dollars in economic activity. All of which will be negatively affected if these fees are put into place. You only have to look toward Nevada to see the effect. Their commission imposed outrageous fees on owners and overnight hundreds of solar industry jobs were lost. Utah prides itself as a economic development state. Your office has worked hard to cultivate growth and it has paid off. If these fees are imposed one of the fastest growing industries in the state will be greatly harmed. Your leadership on this issue is critical. Thank you for your time.

Thank you.

20,750 signers: Save Solar for Utah - Affordable Solar Power in Jeopardy in Utah petition

1 message

Ryan Evans <petitions@moveon.org>
To: Public Service Commission <psc@utah.gov>

Fri, Dec 23, 2016 at 3:06 PM

Dear Public Service Commission,

I started a petition to you titled [Save Solar for Utah - Affordable Solar Power in Jeopardy in Utah](#). So far, the petition has 20,750 total signers.

You can post a response for us to pass along to all petition signers by clicking here: http://petitions.moveon.org/target_talkback.html?tt=tt-115677-custom-75514-20261223-isyHZr

The petition states:

"Stop Rocky Mountain Power from Killing Residential Solar in Utah Over the last year, Rocky Mountain Power's sister company killed 99% of residential solar in Nevada. Now, Rocky Mountain Power is trying to do the same thing in Utah, by asking the Utah Public Service Commission to approve one of the most aggressive, anti-consumer, anti-competitive, and anti-solar proposals ever brought forth by a utility in the United States. The Commission is required to study the costs and benefits of residential solar in Utah. Most states have found that residential solar provides a net benefit to everyone, not just solar customers. Rocky Mountain Power ignores the full benefits and demonstrated cost-savings that they and all Utahns receive from residential solar. Utah deserves an open and transparent cost-benefit study. We call on Governor Herbert, the Utah Legislature, the Utah Public Service Commission, the Utah Division of Public Utilities, and the Utah Office of Consumer Services to reject Rocky Mountain Power's proposal. We ask the Commission to conduct a robust and fair cost-benefit study so that Utah homeowners can continue to invest in solar and energy independence."

Thank you.
