Honorable Commissioners and others,

As a member of a household that has donated unused credits, I expressed our preference that the value of those credits be refunded to us, as it is my understanding that the value of that electricity was paid to Rocky Mountain Power by our neighbors. Based on the attached document it appears those funds are now being contributed to the Low Income Residential Lifeline program.

I am wondering what value, per kilowatt hour, is being used and if anyone has determined the IRS's position on our claiming that value as a tax deductible donation. Any information you can provide is appreciated.

Sincerely,

Don Gren
