Gary,

Thank you for your response. I am working on initiating an inquiry with the IRS. As the value of the excess kilowatt hours, we produced, are being donated to the Low Income Residential Lifeline program, we need to know the value being transferred to the program. Based on our March and April bills it appears we are donating the value of 1,669 KWH for 2014. Who can provide us with the total KWH and value being transferred so we can determine our portion of it.

Thank you,

Don Gren

Honorable Commissioners and others,

As a member of a household that has donated unused credits, I expressed our preference that the value of those credits be refunded to us, as it is my understanding that the value of that electricity was paid to Rocky Mountain Power by our neighbors. Based on the attached document it appears those funds are now being contributed to the Low Income Residential Lifeline program.

I am wondering what value, per kilowatt hour, is being used and if anyone has determined the IRS's position on our claiming that value as a tax deductible donation. Any information you can provide is appreciated.

Sincerely,

Don Gren
