Re: Docket No. 14-035-142 - In the Matter of Rocky Mountain Power's Annual Demand Side Management Nov. 1st Deferred Account and Forecast Reporting

Dear Ms. Hymas:

On November 3, 2014, PacifiCorp, dba Rocky Mountain Power ("PacifiCorp"), filed its Annual Demand Side Management Deferred Account and Forecast Report for 2015 ("Report") with the Public Service Commission of Utah ("Commission"). Comments on the Report were provided by the Utah Division of Public Utilities ("Division") and the Office of Consumer Services ("Office"). The Division concludes the Report is in compliance with the Commission Order issued on August 25, 2009, in Docket No. 09-035-T08, and recommends the Commission acknowledge the Report.

Based on its review of the Report, the Office recommends PacifiCorp adjust its 2015 Integrated Resource Plan ("IRP") target to reflect realistic conditions, since the forecasted megawatts saved for the Irrigation Load Control program are lower than the IRP target. The Office also notes it will discuss future adjustments to Schedule 193 with the DSM steering committee to minimize the level of carrying charges paid for in rates.

The Commission has reviewed PacifiCorp's Report, the Division's and the Office's comments and recommendations, and acknowledges that the Report complies with the Commission's reporting requirements.

Sincerely,

/s/ Gary L. Widerburg
Commission Secretary
