RE: Rocky Mountain Power Request for Approval of Electric Service with Monroe City, Utah, Docket No. 14-035-19.

Rocky Mountain Power Request for Approval of Electric Service with Helper City, Utah, Docket No. 14-035-18.

On February 10, 2014, the Public Service Commission (Commission) sent to the Division of Public Utilities (Division) action requests in the above referenced Dockets requesting a response by March 12, 2014. Today, February 11, 2014, the Division received notice that the Commission had shortened the date to receive comments to February 27, 2014.

The Division requests that the Commission change the comment due date back to March 12, 2014.

The Division needs time to send data requests, receive responses to data requests, and to otherwise investigate these dockets. Generally, the Division needs at least 30 to 45 days to respond to action requests.
