ACTION REQUEST RESPONSE

To: Utah Public Service Commission

From: Utah Division of Public Utilities

Chris Parker, Director

Artie Powell, Energy Section Manager

Date: September 22, 2014

Re: **Request for Extension of Time, Docket No. 14-035-40, RMP Quarterly Compliance Filing, Schedule 38 Update**

Rocky Mountain Power filed its quarterly update to Schedule 38 on August 22, 2014. The Commission issued an Action Request on September 9, 2014, with a due date of September 22, 2014. The Division is still reviewing the Company's filing and request an extension of time for filing its response. Additionally, the Division understands that other parties may ask for a scheduling conference to allow more time for their comments. In view of such a request, the Division would file in compliance with the Commission's scheduling order. In the absence of a request for a scheduling conference, the Division requests an additional three weeks to October 14, 2014 to file its comments and recommendations.

CC Paul Clements, Rocky Mountain Power
