

ELECTRIC SERVICE SCHEDULE NO. 111 - Continued
Table 1. Qualifying Equipment or Services - (continued)

Equipment or Service	Customer Incentive	Mid-Market Incentive	Contractor Required	Participation Procedure
For Insulation Measures: <ul style="list-style-type: none"> Incentive may not exceed total project cost. In order to receive non-self-install incentives, work must be completed by a qualified weatherization trade ally per program requirements. Customers with both electric heat and electric cooling are only eligible for the electric heat incentive. Customers applying for electric heat incentives must have a permanently installed electric furnace, heat pump or zonal electric heat system serving at least 80% of the home's conditioned floor area and used as the primary heat source of the residence. Customers applying for electric cooling incentives must have a permanently installed ducted central air conditioner or heat pump that cools at least 80% of the home's conditioned floor area. Insulation must be fully installed per program requirements prior to submitting application. For participating WAP contractors, the customer incentive will be paid directly to the WAP contractor. 				
Windows - Residences with Electric heat				
Tier 2 (R-5) Windows U-Factor of ≤ 0.22	\$2.00/SF	NA	No	Post purchase application
Windows - Residences with Electric cooling				
Tier 1 Windows U-Factor of ≤ 0.30	\$0.50/SF	NA	No	Post purchase application
Tier 2 (R-5) Windows U-Factor of ≤ 0.22	\$1.00/SF	NA	No	Post purchase application
For Windows Measures: <ul style="list-style-type: none"> Incentive may not exceed total project cost. Customers with both electric heat and electric cooling are only eligible for the electric heat incentive. Customers applying for electric heat incentives must have a permanently installed electric furnace, heat pump or zonal electric heat system serving at least 80% of the home's conditioned floor area and used as the primary heat source of the residence. Customers applying for electric cooling incentives must have a permanently installed ducted central air conditioner or heat pump that cools at least 80% of the home's conditioned floor area. For participating WAP contractors, the customer incentive will be paid directly to the WAP contractor. 				
Duct sealing electric heating ($R_{initial} > R-2$)	\$300	\$100	Yes	Post purchase application
Duct sealing and duct insulation Electric cooling	\$100	\$20	Yes	Post purchase application
Duct sealing and duct insulation Electric heating	\$600	\$200	Yes	Post purchase application
Manufactured Homes Duct Sealing, Electric heat	NA	Up to \$750	Yes	Direct install
Manufactured Homes Duct Sealing, Electric cooled	NA	Up to \$200	Yes	Direct install
For Duct Sealing & Duct Insulation Measures: <ul style="list-style-type: none"> Incentive may not exceed total project cost. Customers with both electric heat and electric cooling are only eligible for the electric heat incentive. Work must be completed by a qualified or participating HVAC trade ally per program requirements. Customers applying for electric heat incentives must have a permanently installed electric furnace, heat pump or zonal electric heat system serving at least 80% of the home's conditioned floor area and used as the primary heat source of the residence. Customers applying for electric cooling incentives must have a permanently installed ducted central air conditioner or heat pump that cools at least 80% of the home's conditioned floor area. For participating WAP contractors, the customer incentive and mid-market incentive will be paid directly to the WAP contractor. 				
New Manufactured Homes, ENERGY STAR, Electric heat	NA	\$1,000	Yes	Manufacturer rebate
New Manufactured Homes, ENERGY STAR, Electric cooled	NA	\$500	Yes	Manufacturer rebate
For New Manufactured Homes Measures: <ul style="list-style-type: none"> Customers with both electric heat and electric cooling are only eligible for the electric heat incentive.
