It was brought to my attention that there may be some changes to your Incentive Program on the LED Fixtures. I am the owner of a Wholesale Electrical Distributor Company and if this change, of not allowing me the same (not any better just the same) incentive to offer my clients and homeowners in my area is done away with, I feel it is a complete and total injustice. I will struggle making my mortgage and feeding my children if I am no longer able to participate in this Incentive. Please allow us Electrical Distributors just the same not any better just the same incentive. You will also force the consumer to purchase an inferior product from a big box store compared to the models we stock and are able to sell at the same price giving the end user a fair value.

Respectfully

Matt Roberts
