

**ROCKY MOUNTAIN POWER**  
**ELECTRIC SERVICE SCHEDULE NO. 107**

**STATE OF UTAH**

\_\_\_\_\_  
**Solar Incentive Program**  
\_\_\_\_\_

**APPLICABLE:** All customers served by the Company in the State of Utah billed on all retail rate schedules and Special Contract Customers whose bills are subject to Schedule 195 the Solar Incentive Program Surcharge.

**DEFINITIONS:**

**Approved Program Calculator**

A tool used to compute the estimated production (kW) for a System associated with the Program. The tool will take into consideration the generating capability of the equipment, the efficiency of the inverter, and other design factors of the System including location, azimuth, tilt, shading and mounting method.

**Capacity Reservation**

Capacity Reservation means Company acceptance of an application under the Program for a specific level of system capacity based on Program Sector.

**Customer**

Customer means a single electricity delivery point.

**Program**

The Solar Incentive Program as described in the Schedule.

**Program Year**

For 2012/2013, the Program Year shall be October 12, 2012 through December 31, 2013. All other Program Years shall be the calendar year.

**Program Sector**

A Program Sector is a means of classifying systems eligible for incentives based on system and customer attributes. Three categories of systems will be eligible for distinct incentive levels and available capacities, including the Residential System Program Sector, Small Non-Residential System Programs Sector, and Large Non-Residential System Program Sector.

**Program Administrator**

Qualified person or entity hired by the Company to administer this Program.

**System**

System means a solar photovoltaic installation at Customer's project site.
