
ELECTRIC SERVICE REGULATION NO. 2 - Continued

- 29. Remote Service.** – Service to distant or isolated locations which, in the Company’s opinion, will not have sufficient annual Schedule Billings to cover the Company’s annual incurred costs. A distant location is any location, or group of locations more than one-half mile from the Company’s existing distribution facilities. An isolated location is one where additional development is unlikely due to geographical constraints, and may be less than one-half mile from existing distribution facilities.

- 31. Seasonal Service** – Service for annually recurring periods of use where service is discontinued or curtailed during part of the year.
- 32. Service** -- See Electric Service. The word "Service" may also be used to refer to the wires between the Company's supply and the Customer's entrance conductors.
- 33. Subdivision** -- An area identified by filed subdivision plats in which a group of dwellings may be constructed at about the same time.
- 34. Temporary Service** -- Service requested for a limited period of time or of questionable duration at the end of which the facilities will no longer be needed and in all probability will be removed. These facilities include, but are not limited to, service for construction power, seasonal sales lots, carnivals, rock crushers or paving plants.
- 35. Termination of Service** -- The disconnection of electric service to a given Customer at a given location.
- 36. Year** -- The period between the date of commencement of service under the application for electric service, Electric Service Agreement or contract and the same date of the following contract year.
