**2. RESIDENTIAL EXTENSIONS (continued)**

**(c) Remote, Seasonal and Recreational Residential Service**

The Company will make Extensions for Remote, Seasonal and Recreational Residential Service according to a written contract. The Applicant shall pay a Contract Minimum Billing for as long as service is taken, but in no case more than 15 years nor less than five years.

Additional Applicants must also contract to pay a Contract Minimum Billing for as long as service is taken, but not to exceed 15 years, and share the Facilities Charges of the existing Customers.

**(d) Three Phase Residential Service**

Where three-phase residential service is requested, the Applicant shall pay the difference in cost between single-phase and three-phase service.

**(e) Transformation Facilities**

When an existing residential Customer adds load, or a new residential Customer builds in a subdivision where secondary service is available at the lot line either by means of a transformer or a secondary junction box and the existing transformation facilities or service conductors are unable to serve the increased residential load:

- 1) the facilities upgrade shall be treated as a standard line extension if Customer's demand exceeds the capacity of the existing facilities;
- 2) the facilities upgrade shall be treated as a system improvement and not be charged to the Customer if the Customer's demand does not exceed the capacity of the existing facilities.

**(f) Underground Extensions**

The Company will construct Extensions underground when requested by the Applicant or if required by local ordinance or conditions. The Applicant shall provide all trenching and backfilling, imported backfill material, conduits, and equipment foundations that the Company requires for the Extension.

If the Applicant requests, the Company will provide and install these items at the Applicant's expense. The Applicant must also pay for the conversion of any existing overhead facilities to underground, under the terms of Section 6 of this Regulation.
