Docket No. 15-022-701

Dear Public Service Commission Board :

The Bridger Valley Electric Association Board of Directors authorized a change to the monthly facilities charge for members who fall in the billing category of Idle Line Retention. Enclosed is the revised tariff sheet reflecting that change for filing with the Public Service Commission.

The change was approved by the Board for consumers in both Wyoming and Utah served by Bridger Valley Electric and identical changes are being filed with the Wyoming Public Service Commission.

This is a necessary increase to our facilities charge to members who have no immediate need for electrical service, but desire to have the electric line left in place for future use. The meter, meter loop, security light and transformer may be removed at the option of BVEA while poles and line will be left intact.

We respectfully request that these schedules be accepted for filing.

If you need any additional information or have further questions, please let me know.

Sincerely,

Jud Redden
General Manager, Bridger Valley Electric Association
