Re: Docket No. 15-031-T03, In the Matter of Mt. Wheeler Power, Inc.'s Tariff Adjustments

Dear Mr. Ewell:

On August 12, 2015, the Division of Public Utilities (Division) filed an action request response recommending the Public Service Commission of Utah (Commission) acknowledge the revisions to Mt. Wheeler Power, Inc.'s (Mt. Wheeler) tariff, effective July 14, 2015.

The Division reports that Mt. Wheeler proposes to change the times when off-peak summer rates are available to customers. The Division notes the proposed changes were approved by Mt. Wheeler's board the same day the Commission was notified and the changes were made effective. The Division states this effective date does not comply with Utah Code § 54-3-3 and Utah Administrative Code rule R746-405-2(E)(2) because it is not 30 days after the notice was filed with the Commission. However, the Division concludes, after investigation, the oversight in this case has no material impact on Mt. Wheeler's Utah customers.

The Commission accepts the Division's recommendation and acknowledges the revised tariff sheets, with an effective date of July 14, 2015, and makes them available for public inspection.

Sincerely,

/s/ Gary L. Widerburg
Commission Secretary
