Class 2 Measure Data and Assumptions

Appendix H is a comprehensive list of the measures considered for the Class 2 potential analysis. For each measure, the following information is provided:

- **Segment:** Relevant market segment, building type, or facility type. Relevant options are listed in Appendix A.
- **End Use:** Category of end-use equipment to which measure savings apply. Relevant options are listed in Appendix A.
- **Measure Name:** Technical description of the measure, including measure efficiency.
- **Unit Description:** Units for savings and incremental costs.
- **Construction Vintage:** New or existing construction.
- **Average Savings per Unit (Annual kWh @meter):** First-year kWh savings at the customer meter.
- **Measure Life:** Expected life of measure in years.
- **Average Incremental Cost Per Unit:** Includes incremental equipment, labor, and present value O&M costs.
- **Base Year Saturation:** Percentage of units (homes, building, equipment, etc.) that have already installed or received the measure.
- **Applicability:** Percentage of units (homes, buildings, equipment, etc.) that can receive the measure. Accounts for technical limitations of installing the measure. The available market is Applicability minus Base Year Saturation.
- **Levelized Cost:** Cost (\$) per kWh saved at the generator or system level. This value is given in terms of the total resource cost (TRC) for all states except for Utah, where it is given in terms of the utility cost (UCT) per regulatory preferences.
- **Cumulative Achievable Technical Potential in 2034:** Represents cumulative annual energy savings in 2034 at the generator or system level. This value accounts for the impact of standards, in years after standards go into effect and is consistent with totals presented in Volume 2.
- **20-Year Incremental Achievable Technical Potential:** Represents the sum of 20-year incremental savings at the generator or system level. This value is consistent with what PacifiCorp used for IRP modeling.

Residential Measures

California Residential Measure Assumptions

Table H-1 Table of California Residential Measure Assumptions

Segment	End Use	Measure Name	Unit Definition	Construct. Vintage	Average Savings per Unit (Annual kWh @meter)	Measure Life (Years)	Average Incremental Cost (\$/Unit)	Base Year Saturation	Applicability	Levelized Cost (\$/kWh 2015-2034)	Cumulative Achievable Tech. Potential in 2034 (MWh @gen)	20-Year Incremental Achievable Tech. Potential (MWh @gen)	Savings Source
Manufactured Home	Appliances	Behavioral Programs - Program Participation	Installation	Existing	0.00	1	\$12.00	0%	0%	\$10.00	0	0	OPower
Manufactured Home	Appliances	Clothes Dryer - Heat Pump Dryer (EF 7.47)	Installation	Existing	179.34	14	\$306.84	94%	at stock turnover	\$0.21	175	179	AEO 2013
Manufactured Home	Appliances	Clothes Washer - MEF 3.2	Installation	Existing	14.60	14	\$49.70	96%	at stock turnover	\$0.42	42	41	Developed from RTF "ResClothesWashersSF" (v4.0, 10/2013)
Manufactured Home	Appliances	Dishwasher - CEE Tier 1 (180-295 kWh/yr)	Installation	Existing	8.90	15	\$6.92	68%	at stock turnover	\$0.09	28	26	Developed from RTF "ResDishwasher" v2.2 (12/2012)
Manufactured Home	Appliances	Freezer - Decommissioning and Recycling	Installation	Existing	744.77	5	\$103.00	0%	7%	\$0.02	103	132	PacifiCorp Program Data
Manufactured Home	Appliances	Freezer - Energy Star Tier 4 (25-30% above standard)	Installation	Existing	91.80	21	\$12.44	52%	at stock turnover	\$0.01	40	42	Developed from RTF "ResFreezer" v2.2 (11/2012)

Idaho Residential Measure Assumptions

Table H-2 Table of Idaho Residential Measure Assumptions

Segment	End Use	Measure Name	Unit Definition	Construct. Vintage	Average Savings per Unit (Annual kWh @meter)	Measure Life (Years)	Average Incremental Cost (\$/Unit)	Base Year Saturation	Applicability	Levelized Cost (\$/kWh 2015-2034)	Cumulative Achievable Tech. Potential in 2034 (MWh @gen)	20-Year Incremental Achievable Tech. Potential (MWh @gen)	Savings Source
Manufactured Home	Appliances	Behavioral Programs - Program Participation	Installation	Existing	5.31	1	\$12.00	0%	26%	\$0.05	43	52	OPower
Manufactured Home	Appliances	Clothes Dryer - Heat Pump Dryer (EF 7.47)	Installation	Existing	185.49	14	\$306.84	85%	at stock turnover	\$0.21	227	227	AEO 2013
Manufactured Home	Appliances	Clothes Washer - MEF 3.2	Installation	Existing	35.90	14	\$262.41	98%	at stock turnover	\$0.91	131	122	Developed from RTF "ResClothesWashersSF" (v4.0, 10/2013)
Manufactured Home	Appliances	Dishwasher - CEE Tier 1 (180-295 kWh/yr)	Installation	Existing	9.14	15	\$6.92	74%	at stock turnover	\$0.09	39	37	Developed from RTF "ResDishwasher" v2.2 (12/2012)
Manufactured Home	Appliances	Freezer - Decommissioning and Recycling	Installation	Existing	900.84	5	\$105.00	0%	5%	\$0.01	137	171	PacifiCorp Program Data
Manufactured Home	Appliances	Freezer - Energy Star Tier 4 (25-30% above standard)	Installation	Existing	92.43	21	\$12.44	70%	at stock turnover	\$0.01	60	60	Developed from RTF "ResFreezer" v2.2 (11/2012)
Manufactured Home	Appliances	Microwave - Efficient	Installation	Existing	8.56	15	\$88.95	98%	at stock turnover	\$1.24	20	19	ENERGY STAR Calc
Manufactured Home	Appliances	Refrigerator - CEE Tier 3 (30-35% above standard)	Installation	Existing	97.07	17	\$71.90	100%	at stock turnover	\$0.08	56	57	Developed from RTF "ResRefrigerators" v2.2 (4/2013)
Manufactured Home	Appliances	Refrigerator - Decommissioning and Recycling	Installation	Existing	1,020.17	7	\$105.00	0%	75%	\$0.01	750	898	PacifiCorp Program Data
Manufactured Home	Appliances	Second Refrigerator - CEE Tier 3 (30-35% above standard)	Installation	Existing	164.85	17	\$76.00	21%	at stock turnover	\$0.05	41	41	Developed from RTF "ResRefrigerators" v2.2 (4/2013)
Manufactured Home	Appliances	Stove / Oven - Convection	Installation	Existing	0.89	17	\$112.36	60%	at stock turnover	\$14.11	1	1	DOE Report
Manufactured Home	Appliances	Behavioral Programs - Program Participation	Installation	New	4.87	1	\$12.00	0%	26%	\$0.06	16	17	OPower
Manufactured Home	Appliances	Clothes Dryer - Heat Pump Dryer (EF 7.47)	Installation	New	185.49	14	\$306.84	93%	at stock turnover	\$0.21	93	93	AEO 2013
Manufactured Home	Appliances	Clothes Washer - MEF 3.2	Installation	New	35.90	14	\$262.41	97%	at stock turnover	\$0.91	53	50	Developed from RTF "ResClothesWashersSF" (v4.0, 10/2013)
Manufactured Home	Appliances	Dishwasher - CEE Tier 1 (180-295 kWh/yr)	Installation	New	9.14	15	\$6.92	89%	at stock turnover	\$0.09	17	16	Developed from RTF "ResDishwasher" v2.2 (12/2012)
Manufactured Home	Appliances	Freezer - Decommissioning and Recycling	Installation	New	689.27	5	\$105.00	0%	5%	\$0.02	50	52	PacifiCorp Program Data
