

# PacifiCorp - Stakeholder Feedback Form

## 2015 Integrated Resource Plan

PacifiCorp (the Company) requests that stakeholders provide feedback to the Company upon the conclusion of each public input meeting and/or stakeholder conference calls, as scheduled. PacifiCorp values the input of its active and engaged stakeholder group, and stakeholder feedback is critical to the IRP public input process. PacifiCorp requests that stakeholders provide comments using this form, which will allow the Company to more easily review and summarize comments by topic and to readily identify specific recommendations, if any, being provided. Information collected will be used to better inform issues included in the 2015 IRP, including, but not limited to the process, assumptions, and analysis. In providing your feedback, PacifiCorp requests that the stakeholders identify whether they are okay with the Company posting their comments on the IRP website.

Yes  No May we post these comments to the IRP webpage?

Date of Submittal 8/27/2014

\*Name: Christopher Thomas

Title: **Executive Director**

\*E-mail: Christopher@healutah.org

Phone: 801-364-5110

**\*IRP Topic(s) and/or Agenda Items:** List the specific topics that are being addressed in your comments.

All resource costs

---

Check here if any of the following information being submitted is copyrighted or confidential.

---

**\*Respondent Comment:** Please provide your feedback for each IRP topic listed above.

I am writing to request that, in addition to showing Base Capital (\$/KW), Var O&M (\$/MWh), and Fixed O&M (\$/KW-yr) for each resource, that you also show the levelized costs in cents per kilowatt-hour. I realize this may be difficult for resources that have a fuel cost where the fuel cost has not yet been calculated, or has a range of values (i.e., low gas, high gas, etc.).

However, for resources that don't have a fuel cost, or have a fairly low and static fuel cost, my hope is that it would be fairly easy to calculate a levelized cost using the data already included in the distributed resource tables.

Thank you for considering this comment.

---

**Data Support:** If applicable, provide any documents, hyper-links, etc. in support of comments. (i.e. gas forecast is too high - this forecast from EIA is more appropriate). If electronic attachments are provided with your comments, please list those attachment names here.
