

April 13, 2016

UTAH PUBLIC SERVICE COMMISSION
Heber M. Wells Building
160 East 300 South, 4th Floor
Salt Lake City, Utah 84111

**RE: Docket No. 15-035-51 – In the Matter of PacifiCorp’s Financial Reports –
Results of Operations**

Western Resource Advocates (WRA) appreciates the opportunity to submit comments in support of the comments submitted on behalf of Utah Clean Energy in the above-referenced matter.¹ WRA is a regional non-profit conservation organization with programs and staff spanning the Interior West, including Utah.

WRA understands that pursuant to the Commission’s January 7, 2016 Action Request, the Commission is seeking input from the Division of Public Utilities regarding PacifiCorp’s Annual Cost of Service Study. However, to enable parties who regularly intervene in Commission proceedings to better understand the modeling involved in these types of studies and how this modeling may relate to other modeling conducted by the Company, WRA submits these comments to request an informational meeting or technical conference. Such a conference would provide the opportunity for the Company and the Commission to explain how the Cost of Service Model and the Integrated Allocation Model² function in order to help parties understand their mechanics, and to facilitate increased comprehension and use of the models.

Respectfully submitted this 13th day of April, 2016.

Western RESOURCE ADVOCATES
Jennifer Gardner, Utah Bar #15503
Counsel for Western Resource Advocates

¹ Specifically, WRA files these comments in support of the comments filed by Utah Clean Energy on April 5, 2016. Those comments provided a detailed description of the procedural history in this matter and are incorporated by reference herein.
