Re: **Docket No. 03-035-14 – Quarterly Compliance Filing – 2015.Q1 Avoided Cost Input Changes**

On June 1, 2015 PacifiCorp (dba Rocky Mountain Power) submitted its quarterly Schedule 38 compliance filing pursuant to Public Service Commission of Utah (“Commission”) orders dated October 31, 2005 and February 2, 2006, in Docket No. 03-035-14. In compliance with these orders the Company is required to keep a record of any changes, including data inputs, made to the Proxy and GRID models used in calculating avoided costs. The orders further require the Company to notify the Commission and Division of Public Utilities (“Division”) of updates made to the models used in the approved Proxy and Partial Displacement Differential Revenue Requirement (“PDDRR”) avoided cost methodologies.

On June 22, 2015 the Division filed comments recommending that the Commission acknowledge the Company’s quarterly compliance filing as generally complying with Commission orders. Based on its review the Division report stated that “...the updates to the inputs of the avoided cost calculation are generally reasonable and the avoided cost prices are calculated according to the Commission approved methodology.”

The Company appreciates the effort and cooperation of the Division in arriving at its recommendation in this proceeding and hereby asserts that it has no reply comments in response to the Division’s comments.

Informal inquiries may be made to Bob Lively at (801) 220-4052 or Dan MacNeil at (503) 813-5523.

Very truly yours,

Jeffrey K. Larsen
Vice President, Regulation
