3. In Docket No. 12-035-100, *In the Matter of the Application of Rocky Mountain Power for Approval of Changes to Renewable Avoided Cost Methodology for Qualifying Facilities Projects Larger than Three Megawatts*, the Commission issued a series of Orders, which established avoided capacity and energy cost payments for purchases from renewable QF projects larger than three megawatts, such as Sigurd Solar’s, under contracts with the Company with terms up to 20 years.

4. The Agreement provides for the sale to the Company of energy to be generated by Sigurd Solar, from a solar-powered generation facility for the generation of electric energy located in Sevier County, Utah (the “Facility”). A copy of the confidential Agreement is

attached to this Application as Exhibit A. A copy of the redacted Agreement is attached to this Application as Exhibit B. The Agreement is for a term of twenty (20) years from the Commercial Operation Date.

5. The purchase prices set forth in the Agreement were calculated using the methodology approved in Docket No. 12-035-100.

6. The Facility is located in Sevier County, Utah in an area served by Rocky Mountain Power. All interconnection requirements will be met and the Facility will be fully integrated with the Rocky Mountain Power system.

7. The Agreement constitutes a “New QF Contract” under the PacifiCorp Interjurisdictional Cost Allocation Protocol (“Protocol”), previously filed with the Commission pursuant to a stipulation in Docket No. 02-035-04. According to the terms of the Protocol, the costs of the QF provisions would be allocated as a system resource, unless any portion of those costs exceeds the cost the Company would have otherwise incurred acquiring comparable resources.

WHEREFORE, Rocky Mountain Power respectfully requests that the Commission issue an order approving the Agreement and find the terms and conditions of the Agreement to be just, reasonable and in the public interest.

DATED this 12th day of October 2015.

Respectfully submitted,

Yvonne R. Hogle
