On December 1, 2016, the CAISO held a meeting on "Regional Integration California Greenhouse Gas Compliance and EIM Greenhouse Gas Enhancement Straw Proposal". In the upcoming December 12 technical conference, the Office requests that the Company briefly explain the purpose, the mechanics and the potential impacts on EIM operations and EIM costs/savings of this GHG Straw Proposal.

A copy of the presentation for the CAISO GHG EIM meeting can be found here: http://www.caiso.com/Documents/Agenda-Presentation-RegionallIntegration-EIMGreenhouseGasCompliance-Dec1_2016.pdf

Thank you.
