Re: 16-035-15. RMP 2015 Year End Cost of Service Results

In compliance with the Commission's letter of May 29, 2014, on June 15, 2016, the Company filed with the Commission its Class Cost of Service study based on annual Results of Operations for 2015. The Commission issued an Action Request to the Division to investigate the Company's filing and make recommendations. The Commission asked the Division to report back by August 16, 2016.

The Division is currently reviewing the Company's response to some of the Division's Data Requests. The Division is also engaged in discussions with the Company to clarify certain issues surrounding the new version of the COS model. Therefore, the Division is respectfully requesting the Commission to extend the due date of the Action Request to September 15, 2016. This will allow the Division time to conduct more thorough investigation of the Company's filing.
