HOGLE: 23 0. Thank you. Can you please describe the Settlement, Mr. McDougal? 24 25 First of all, I'd like to thank the Α. Yes.

Page 9 parties for the time and effort that they have 1 2 dedicated to this case and the resulting Stipulation 3 we are presenting today. This Stipulation was 4 negotiated in good faith and is a reasonable and fair outcome in this docket. 5 6 I'm going to walk through, briefly, the Stipulation and touch on each of the major items. 7 While I am going to be providing a summary of the 8 9 Stipulation, the language within the Stipulation itself and the four corners of that document governs 10 11 the Agreement. 12 The Stipulation contains two confidential 13 attachments, and a couple of paragraphs -- as you have noted -- do contain confidential information. 14 I'm going to refrain from specifically referring to 15 any of that unless there's any questions from the 16 17 bench. The first eight paragraphs of the 18 19 Stipulation are basically the background, and they 20 identify a brief overview of the case, the timing of 21 the various filings. 2.2 If we start with Paragraph 9 -- in 23 Paragraph 9, the parties request that the Commission approve the Kennecott Contract as submitted and 24 25 signed in total and -- considering the terms and

Page 10 1 conditions in the Stipulation -- that the Contract 2 and the Stipulation are just and reasonable and in 3 the public interest.

Paragraph 10 discusses two confidential
exhibits that the Company has updated consistent
with recommendations from the DPU. Exhibit A to the
Energy Services Agreement was updated using a
multiplier rather than specific values. And Exhibit
B was updated because of a mathematical error.

Paragraph 11 describes certain limitations and future proceedings related to what the Company can and cannot do in any Kennecott related proceedings, especially related to allocations.

Paragraphs 12 through 14 describe an agreement between the parties on the treatment of Kennecott and the Energy Balancing Account. Specifically in Paragraph 12, that Kennecott will not be subject to the EBA in related rate changes after December 1st, 2016.

The next part describes that Kennecott will be included in the EBA using the process described within Paragraph 14 that basically says, under Step 1, we are going to calculate the EBA just as we do today with the exceptions noted in Step 2 and in Paragraph 18. And Step 2 states that on a

1	Page 11 monthly basis, the Company will apply the Block 2
2	Differential described in Paragraph 14.c to the EBA.
3	The Block 2 Differential is the difference between
4	the excuse me, that was a confidential word
5	the Block 2 Differential is the difference as
6	described in the Settlement of the EBA. The Company
7	will be responsible for the first \$350,000 of that
8	True-up or Deadband. Everything over that will be
9	included and will be recovered from other Utah
10	customers.
11	Paragraph 15 describes what will happen in
12	the next rate proceeding where this is addressed and
13	gives other parties the opportunity to revisit some
14	of the accounting and to revisit the Deadband.
15	However, it states that in any such case the
16	Deadband the other parties will not support any
17	Deadband exceeding \$500,000.
18	Paragraph 17 describes the Kennecott
19	loads, the costs and the revenues, and how they will
20	be treated in interjurisdictional allocations.
21	And then Paragraph 18 describes the
22	treatment if Kennecott serves their Block 2 as
23	described in paragraph 5.01(b)(iii) of the contract.
24	The remainder of the Stipulation just gives general
25	terms and conditions.
1	

Page 12 In summary, the Stipulation has been 1 2 negotiated in good faith by all parties, and we 3 recommend that the Commission approve it as 4 requested and find that the agreement is in the public interest. 5 6 Q. Does that conclude your testimony, Mr. McDougal? 7 Α. 8 Yes. 9 MS. HOGLE: The Company rests. 10 OFFICER HAMMER: Thank you. Mr. 11 Jetter, Mr. Olsen, I'll give you an opportunity to 12 ask any cross-examination questions you have of 13 Mr. Clements or Mr. McDougal. 14 MR. JETTER: No questions from the 15 Division. Thank you. MR. OLSEN: None from the Office. 16 17 OFFICER HAMMER: Thank you. Then we'll proceed with the Division. 18 19 MR. JETTER: Thank you. The Division 20 would like to call to have sworn in Mr. Charles 21 Peterson. 2.2 CHARLES PETERSON, 23 having been first duly sworn to tell the truth, was examined and testified as follows: 24 25 EXAMINATION

Page 13 BY MR. JETTER: 1 2 Q. Mr. Peterson, would you please state your name and occupation for the record? 3 4 Α. Charles E. Peterson. I'm a technical consultant with the Division of Public Utilities. 5 I'm located on the fourth floor here in this 6 7 building. And have you prepared a brief statement 8 0. summarizing the Division's position? 9 Yes, I have. 10 Α. 11 Please, go ahead. Q. 12 Α. Good morning. The Division recommends 13 that the Commission approve the Electric Service 14 Agreement as amended between Kennecott Utah Copper, LLC, and PacifiCorp, doing business as Rocky 15 16 Mountain Power, and the Stipulation that was entered into by the parties as being, in result, just and 17 reasonable and in the public interest. The Division 18 19 has studied the proposed Agreement and is a party to 20 the Stipulation that was filed in this matter. The 21 Company's witnesses -- Mr. Clements and 2.2 Mr. McDougal -- have described a Contract and 23 Stipulation among the parties in some detail, so I will only make a few additional comments. 24 25 As part of its review and evaluation, the

Page 14
 Division has reviewed the responses that they
 requested and the Office of Consumer Services have
 submitted. The Division also participated in
 technical workshops and settlement discussions with
 the Company, Rocky Mountain Power.

The Division had a number of concerns with 6 the Contract, including the approximate 9-year term 7 of the Contract and the apparent risks that rate 8 9 payers face as a result of the lengthy term, 10 including the limitations to price adjustments set 11 forth in the Contract and the reliance on relatively 12 long-term forecasts and other assumptions that went into the Contract pricing. Off-setting these risks 13 14 under this agreement is the risk to rate payers of 15 Kennecott leaving the PacifiCorp system through an action brought before the Commission under Utah Code 16 annotated 54-332. Such an action is now at a 17 18 minimum, pushed out a number of years into the 19 future.

20 And because PacifiCorp now has time to 21 plan and adjust for an eventual departure of 22 Kennecott, such a Section 32 proceeding may not ever 23 need to be brought before the Commission. The 24 Stipulation the parties negotiated with PacifiCorp 25 also brings some additional protections to rate

Page 15 1 payers. 2 In sum, the Division recommends approval 3 of the Stipulation and the Electric Service 4 Agreement between the Company and Kennecott as just and reasonable and in the public interest in result. 5 And that concludes my statement. 6 7 OFFICER HAMMER: Thank you. Mr. Peterson is available for cross-examination. 8 Ms. Hogle or Mr. Olsen, any questions? 9 10 MR. OLSEN: No questions. 11 OFFICER HAMMER: Thank you. 12 MR. JETTER: We have nothing further 13 from the Division. 14 OFFICER HAMMER: Thank you, Mr. Jetter. Mr. Olsen? 15 MR. OLSEN: Thank you. The Office 16 would like to call Cheryl Murray and have her sworn, 17 18 please. 19 CHERYL MURRAY, 20 having been first duly sworn to tell the truth, was 21 examined and testified as follows: 2.2 EXAMINATION 23 BY MR. OLSEN: 24 0. Ms. Murray, could you state your name and business address for the record, please? 25

Page 16 1 My name is Cheryl Murray. My business Α. 2 address is 160 East 300 South, Salt Lake City, Utah. Q. And what is your position with the Office? 3 4 Α. I'm a utility analyst. Thank you. Did you participate in 5 0. settlement discussions related to the Kennecott 6 Electric Service Agreement under consideration here 7 today? 8 Michele Beck, the director of the 9 Α. Yes. Office, and I participated in the negotiations. 10 11 Have you prepared testimony in support of Q. 12 the Stipulation? 13 Α. Yes. 14 0. Please proceed. 15 Good morning. To support our efforts to Α. assess the implications of the Electric Service 16 Agreement -- or ESA -- on interjurisdictional 17 allocations and net power costs, the Office enlisted 18 19 the assistance of expert consultants Donna Ramos and 20 Philip Hayet. 21 The Office and our consultants reviewed 22 all testimony, exhibits, work papers, and the 23 Electric Service Agreement provided in the Company's filing. We submitted three sets of data requests. 24 Our informal questions resulted in several 25

Page 17 1 conference calls with appropriate Company personnel. 2 In addition, we participated in technical 3 workshops and met separately with Rocky Mountain 4 Power and Kennecott representatives to gain an understanding of all provisions of the ESA, as well 5 as the impact on current and future rates for our 6 other customers. The Office believes that the ESA 7 can be found to be in the public interest in the 8 9 context of the provisions described in the Settlement Agreement. 10 11 The Office would like to highlight the 12 following important provisions from that Settlement 13 Agreement. Paragraph 11: "The Company agrees that 14 it will not take a position on whether costs associated with serving the Kennecott load should be 15 16 included in cost allocations to Utah beyond the date of the termination of the Kennecott Contract in the 17 Multi-State Process ("MSP") or any similar 18 19 successive MSP process, including any regional or 20 FERC process in which allocation of costs to 21 different states or jurisdictions is addressed." Ιt 2.2 is the Office's view that this provision will help 23 mitigate future risks of an entity attempting to 24 assign additional costs to Utah if Kennecott leaves 25 the Rocky Mountain Power system.

1	Page 18 Paragraph 15, in part, reads, "The Parties
2	agree that either in the next general rate case or
3	other appropriate proceeding, Parties may propose
4	alternative methods for the ratemaking treatment of
5	the Block 2 True-up and the Deadband." The Office
6	believes that the treatment of the costs associated
7	with the ESA as described is reasonable but must be
8	revisited when rates are re-set so that it can be
9	reviewed as part of a complete evaluation of rates.
10	The future ability of parties to suggest an
11	alternative method of accounting for the True-up of
12	Block 2 costs is essential to the Office's support
13	of the Stipulation.
14	Taken in total, the Office believes that
15	the Settlement Stipulation is just and reasonable in
16	result and in the public interest. Accordingly, we
17	recommend Commission approval.
18	Q. Does that conclude your statement for
19	today?
20	A. Yes, it does.
21	MR. OLSEN: Ms. Murray is available
22	for cross-examination.
23	OFFICER HAMMER: Any
24	cross-examination for Ms. Murray?
25	MS. HOGLE: No questions.

1	Page 19 MR. JETTER: No, thank you.
2	OFFICER HAMMER: Thank you, Ms.
3	Murray. I believe that concludes the parties'
4	presentation of evidence. Are there any other
5	preliminary or, I should say, additional matters
6	before we adjourn? All right.
7	Well, the Commission is aware that
8	the existing contract is set to expire I'm not
9	sure if that date is confidential, so I won't
10	enumerate it or state it here, but we're aware
11	that the parties need an order within approximately
12	a month, and we will do our best to get one out.
13	MS. HOGLE: I do have one question.
14	I did notice that the commissioners are not present,
15	but we would hope that the hearing officer would
16	consider a request for a bench order approving this
17	Stipulation, given that there is no opposition from
18	any intervenors, and there is full support by the
19	Office.
20	As you stated, in the interest of
21	clarity and certainty, I believe that the fact that
22	the new contract is vastly different from the one
23	that is soon to be expired warrants consideration of
24	a bench order in order for Kennecott and Rocky
25	Mountain Power to transition into the new
1	

1	Page 20
	arrangement and agreement among them.
2	OFFICER HAMMER: Does any other party
3	have anything to say about Ms. Hogle's request for a
4	bench ruling?
5	MR. JETTER: I think I could just say
6	for the Division we have no objection to a bench
7	ruling. We support this stipulation and approval of
8	it, so in any form, we would support it.
9	MR. OLSEN: Same with the Office. We
10	have no objection.
11	OFFICER HAMMER: Well, I think I can
12	probably get a quorum together of the commissioners
13	in back if we recess for a few minutes. And then I
14	could not only potentially issue a bench ruling, but
15	I could state whether it was approved and confirmed
16	by the Commission. So we'll be in recess for a few
17	minutes. Thank you.
18	(A brief recess was taken.)
19	OFFICER HAMMER: Having considered
20	the Application, the Stipulation and accompanying
21	exhibits, and the testimony presented in hearing,
22	the Commission finds the Stipulation and the
23	Electric Service Agreement between Kennecott and
24	Rocky Mountain Power to be just, reasonable, and in
25	the public interest. The Commission therefore
1	

1	Page 21 grants the Application and approves the Stipulation
2	and the Electric Service Agreement as amended by the
3	Stipulation. This bench order has been approved and
4	confirmed by the Commission, and the Commission will
5	issue a written order to memorialize it.
6	In the meantime, the Stipulation and
7	Electric Service Agreement are approved, effective
8	immediately, and should take effect as dictated in
9	the terms of those agreements. Do the parties have
10	anything else before we adjourn? Thank you.
