Lieutenant Governor

To: Rocky Mountain Power
From: Utah Division of Public Utilities

Date: October 31, 2016

Re: **Division of Public Utilities Questions for the November 7, 2016, 1st Technical Conference in Phase 2 of Rocky Mountain Power's proposed STEP Program related to Clean Coal Technology.**

Docket No. 16-035-36

Regarding the co-funding of University of Utah Phase 1 Pre-feasibility Study of Commercial CO₂ Sequestration sites in Utah:

1. Please explain in detail Rocky Mountains participation in the study.
2. How will the \$150,000 be spent? If it is added to other co-participants funding, how will Rocky Mountains contribution be monitored or verified?

Regarding the co-funding of a long term availability test of Sustainable Energy Solutions' Cryogenic Capture Technology

3. What is the total anticipated cost of the project?
4. Who has committed funds and how much has been committed by each entity (also timeline)?
5. How much will PacifiCorp pay in total?
6. What portion of PacifiCorp's fund commitment is allocated to STEP?
7. When was the company first approached by Sustainable Energy Solutions regarding the project?
