**Table 1c – New Construction/Major Renovation Lighting Incentives**

| Measure            | Category  | Eligibility Requirements   | Incentive<br>“up to”                                  |
|--------------------|---|--|---|
| Interior Lighting* | Lighting and Lighting Control                     | 1. The total connected interior lighting power for New Construction/Major Renovation projects must be at least 10% lower than the interior lighting power allowance calculated under the applicable version of the state energy code. For New Construction/Major Renovation projects not included in the state energy code, the total connected lighting power must be at least 10% lower than common practice as determined by the Company.<br>2. Energy savings is subject to approval by the Company. | \$0.08/kWh annual energy savings                      |
| Exterior Lighting  | Induction Fixture                                 | All Wattages, New Fixtures Only  | \$75/Fixture  |
|                    | LED Outdoor Pole/Roadway, decorative              | <75W; LED must be listed on qualified equipment list   | \$75/Fixture  |
|                    | LED Outdoor Pole/Roadway                          | ≤200W; LED must be listed on qualified equipment list  | \$100/fixture   |
|                    |   | >200W; LED must be listed on qualified equipment list  | \$400/fixture   |
|                    | LED Canopy/Soffit                                 | LED must be listed on qualified equipment list   | \$125/fixture   |
|                    | LED Wall Packs                                    | <50 Watts; LED must be listed on qualified equipment list  | \$50/fixture  |
|                    |   | ≥50 Watts; LED must be listed on qualified equipment list  | \$75/fixture  |
|                    | LED Flood Lights                                  | <100 Watts; LED must be listed on qualified equipment list   | \$75/fixture  |
|                    |   | ≥100 Watts; LED must be listed on qualified equipment list   | \$150/fixture   |
|                    | CFL Wall Pack                                     | All Wattages, Hardwire Fixtures Only   | \$30/Fixture  |
| Custom             | Not listed above                                  | \$0.08/kWh annual energy savings   |   |
|                    | <u>Exterior Dimming Control/ Lighting Control</u> | <u>Must control LED technology in an exterior lighting application. Control must be integral to LED fixture or fixture-mounted and reduce fixture power by 75% or more for a minimum of 6 hrs per night or when the space has been unoccupied for 15 minutes or less. eOccupancy control which must control a linear fluorescent, induction, or LED fixture</u>  | <u>\$0.34/Watt controlled**\$0.30/Watt controlled</u> |

\*Project Cost Caps of 70% and 1-Year Simple Payback Caps apply to New Construction and Major Renovation projects that are not subject to state energy code. The 1 year simple payback cap means incentives will not be available to reduce the simple payback of a project below one year. If required, individual measure incentives will be adjusted downward pro-rata so the project has a simple payback after incentives of one year.

\*\* Exterior lighting controls required by the applicable version of the state energy code are not eligible for incentives.

CFL – Compact Fluorescent Lamp
