P.S.C.U. No. 50

ELECTRIC SERVICE SCHE4DULE NO. 34 - Continued

any issues the Commission determines to be relevant, which may include, but not be limited to, contribution to system fixed costs, if any. For a Customer other than a new Customer or an existing Customer expanding its load, evaluation of the "public interest" will include consideration of the costs of existing Company facilities.

- 3. At the request of a Customer, the Company may agree to enter into a new contract with another customer to accommodate a transfer of the Customer's rights and obligations with respect to a renewable energy resource to another Customer, subject to Commission approval of the new contract.
- 4. The following provisions set out the criteria for renewable energy resources eligible under this schedule:
 - a. A generation facility that derives its energy from a renewable energy source as defined in Utah Code Annotated § 54-17-601. The renewable resource may be owned by the Company, the Customer or any other person or entity(ies), provided that the Company will enter into a contract under reasonable terms and conditions to buy output from renewable energy resources owned by others.
 - b. Renewable energy credits (RECs) associated with renewable energy delivered under this Schedule will be deposited into an account maintained by or on behalf of the Customer, and will be retired. If specified in the contract, unbundled RECs can be acquired in the marketplace by the Company on behalf of the Customer at the Customer's expense to allow the Customer to meet its renewable energy goals during time periods when a Customer's electrical usage is ramping up to full intended levels or the Customer is in the process of attempting to secure renewable resources.
 - c. Renewable resources eligible for contract under this Schedule must not already be included in the Company's rates.
 - d. The Company will take physical delivery of output from the renewable energy facility and will provide electric service to the Customer.
- 5. The Company will require a nonrefundable application fee of \$5,000.00 from each Customer requesting service under this Schedule, as a partial offset to the Company's costs related to the preparation of a contract for review by the Commission, which fee shall not be refunded whether a contract is ultimately executed. For purposes of application of this fee, one application fee will be assessed on a Customer aggregating multiple points of delivery.

ELECTRIC SERVICE REGULATIONS: Service under this Schedule will be in accordance with the terms of the Electric Service Agreement between the Customer and the Company. The Electric Service Regulations of the Company on file with and approved by the Public Service Commission of Utah, including future applicable amendments, will be considered as forming a part of, and be incorporated in said Agreement.

Issued by authority of Report and Order of the Public Service Commission of Utah in Advice No. 16-08
