Re: *Flowell Electric Association, Inc.'s Proposed Tariff Revisions; Docket No. 19-027-T01*

Dear Mr. Robison:

The Public Service Commission of Utah (PSC) reviewed the April 24, 2019 filing by Flowell Electric Association, Inc. (Flowell) and the May 9, 2019 action request response by the Division of Public Utilities (DPU) regarding Flowell's updates to its Index of Electric Service Regulations, State of Utah (Regulations). The DPU states that Flowell's board recently updated the Regulations and filed a copy with the PSC for reference. The DPU states that the updated Regulations do not involve a change in any of Flowell's rates and recommends that the PSC accept the Regulations and make them available for public inspection.

Based on the PSC's review of Flowell's filing and the DPU's comments, the PSC acknowledges Flowell's filing of the Regulations and makes them available for public inspection at the PSC.¹

Sincerely,

/s/ Gary L. Widerburg

PSC Secretary
