Current depreciable lives were approved in November 2013. Changes from those dates are shown in color. Changes made in the 2017 IRP are shown in blue, changes made in the Sept 2018 depreciation filing are shown in purple, and changes in the 2019 IRP are shown in red.

*Naughton 3 ceased coal-fired operation in January of 2019 as required by Wyoming's Regional Haze SIP. It will be converted to gas in 2020 and will continue to operate as a gas-fired resource through 2029.
