Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Mr. William McClellan

This is especially important for senior citizens since we need to stay home most of the time, and winter requires more lighting so that we can see well.

Dear Public Service Commission,

At this time of economic stress for families and individuals it is unnecessary to boost the profits of a corporation, even though it may be a campaign contributor. While economic stability of the people is in doubt, corporate profit is not, should not be a priority.

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns--especially those of us who are retired and constrained by limited fixed incom--who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

THANK YOU!

Sincerely,

Mr. Tony Owens

Dear Public Service Commission,

Given the current status of events in 2020, I would want to believe that a huge conglomeration like the power company in our area would not continue to try and raise utility rates. We have so many people still unemployed, the economy has NOT bounced back and many would suffer and be negatively impacted by increasing rates! There is still lots of new construction in the southern area of the state and I would suspect that all those NEW customers would be adding continually to the bottom line profits of RMP. Please consider all those with fixed incomes as well.

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers. Or a a minimum, keep the rates the same.

I can't believe at this time when the world is in such a bad state of job losses, homelessness, sickness, deaths of loved ones because of this pandemic that you would even be considering raising your rates! Families need help at this time not more burdens. An increase would put a big burden of low income families to middle class families, they wont be able to pay their bill which will them be turned of and the you have families living in the cold babies and children sleeping in cold beds, cold food or no food because parents pay your increased bill instead of buying food. Your a terrible thoughtless company if you do that to so many families, elderly, and disabled persons. You should be ashamed!

Sincerely
Debra Carlson

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Mr. Rex Firth

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

On a fixed income unlikely to ever change cost increases for those retired or disabled could be difficult.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Ms. Patricia Murphy

Dear Public Service Commission,

Personally, an increase won't be a significant burden to my family. But, the bigger picture is the citizens of this great state. The timing of an increase is awful. The pandemic has stretched pocketbooks and patience quite thin. An increase would be detrimental to thousands of Utahs that simply cannot pay for more of a companies debt and constant incremental increases.

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your time and consideration of Utahns.

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

A global pandemic, tens of thousands out of work and losing their healthcare, seniors struggling to feed themselves on fixed incomes; I mean sure, why not raise electric rates and make their lives even harder? Are you kidding me, this is absurd!

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Mr. Douglas Ross
3652 Ecker Hill Drive

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

All people have been hit hard financially every way they turn. Everything we use and need has risen in cost because of the Covid-19 Pandemic. We as Senior Citizens especially cannot now make ends meet. It costs so much for groceries. Much more than it did a year ago. It costs more for every commodity. It looks like Rocky Mountain Power could reduce there rates instead of raise them. It would be a big power for helping almost all of the people in their area.

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Mrs. Teresa Sanofsky

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Mr. Jeffrey Hurd

Dear Public Service Commission,

It is hard for me to fathom how Rocky Mountain Power can justify raising our rates during a time when thousands of people have lost their jobs, can't pay rent or buy food for their tables. Explain where the humanity is in this proposal.

You have a job. You are making a healthy living. You need to consider the people who can't even make ends meet!

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

My wife and I are in our 80's. Between Utilities and Property taxes going up this year, the Social Security increase of only 1.3% in no way hardly helps at all. On a fixed income, when the price of something goes up, we have to figure out what comes off the dinner table to cover it.

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Mr. Ronald Bresee

Dear Public Service Commission,

Dear Sir,

As a long time customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase. This increase could not come at worse time with the Pandemic numbers increasing each day, the number of people out of work and struggling to pay bills, and going into the cold winter season.

Please show compassion and empathy at this time and I want to thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Debbie Waldram

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. This is too much of a burden for struggling families. With unemployment and COVID 19 this is a terrible idea.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Ms. Shirley French

My wife and I are in our 80's. Between Utilities and Property taxes going up this year, the Social Security increase of only 1.3% in no way hardly helps at all. On a fixed income, when the price of something goes up, we have to figure out what comes off the dinner table to cover it.

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Mr. Mark Tolman

It's been a tough year; our only source of income since mid-May is my husband's unemployment and my minimal social security. I'm sure we are not the only Utahns who have been financially impacted in such a negative way in 2020. So, thank you for your consideration of Utahns who would be deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Dear Public Service Commission,

We live in a low income area with many seniors. This rate increase would greatly impact the young families who are barely making it on their monthly income and also all all the seniors who are on a fixed income. At this point my husband continues working. He is over 70 years old and will soon need to retire. This rate increase would take a big bite out of the money we would have to live .

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Ms. Midge Henline

UT

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Ms. HOLLY BIRD
