Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Ms. Terri Aranich

Being on a fixed income really hurts us as we struggle to pay our bills. I understand those who go solar have reduced your resources for fincanes, but we who can't afford to go solar should not be penealized. It seems your best practices should include reducing you expenditures by restructuring rather than making us pay for a Hugh organization supporting a dwindling customer base.

I wish to add this comment. Thank you for the services you do provide we are so blessed by the reliable life security you give.

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Ms. Jeanne Breu

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

I am a senior citizen, widowed, on a fixed income. Medicare Part B premiums are increasing in 2021 and the Social Security cost of living increase is negligible in 2021, not even covering the Medicare increase. An increase in electricity rates would have a negative affect on my budget and make it more difficult to take care of my every day expenses.

Thank you for your consideration of Utahns who like myself would be impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Mrs. Marjorie Jackson

Dear Public Service Commission,

No, no, no this is the wrong time to even consider raising what it cost to live in Utah. People are struggling just to put food on the table. This increase would hurt our already struggling service industry and their many employees, many of whom cater to the service industry

I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Mr. Val Brown

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

This proposed increase would work a hardship on many families that are living on a very tight budget.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Mr. Horace Ralph

The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

I am a disabled senior citizen living on Social Security who has had to rely on the goodwill of family members to pay some of my bills. However, with Covid and layoffs most cannot help me any longer. If you keep making it more and more expensive to stay in my home what am I supposed to do? Please take into consideration that everything is going up faster than any SS increase can cover and it always has, but now it is getting ridiculous and impossible to deal with.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

I am a disabled senior citizen living on Social Security who has had to rely on the goodwill of family members to pay some of my bills. However, with Covid and layoffs most cannot help me any longer. If you keep making it more and more expensive to stay in my home what am I supposed to do? Please take into consideration that everything is going up faster than any SS increase can cover and it always has, but now it is getting ridiculous and impossible to deal with.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Ms. Patricia Leff

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

Sincerely,

Mrs. Nicole Pankratz

Dear Public Service Commission,

In a time of pandemic crisis, and high unemployment. Now is NOT the time to raise rates. As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Dear Public Service Commission,

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.

Thank you for your consideration of Utahns who are deeply impacted by this proposed increase and I urge you to support lower rates for Utah customers.

As I have been a resident here in Layton for over 45 years, I feel I have an important say in this issue. I have accepted the increases in utilities over these years but I must now object to the proposed increases.

As stated above, I support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. 2020 has been extremely hard on everyone. Let's end the year on a better note and consider the many senior citizens who try and make it on fixed incomes. We have supported you, utilities, for a long time. Now it is your turn.

Thank you for your time and consideration of this proposal.
RoyLene Hill, retired educator of YOUR CHILDREN

Sincerely,

Ms. RoyLene Hill

Dear Public Service Commission,

Personnel:

You will see that the insert here is similar to many others. It is personal, though, as the up to 6.7% increase proposal will affect my household which has a fixed income, by using less electricity and being even more conservative that we are. We will not be able to afford the increase.

As a customer of Rocky Mountain Power, I urge you to support the Office of Consumer Service's position in Docket 20-035-04 to reduce rates for Utah customers rather than increase them as proposed by the utility. The Office has shown that by reducing the amount of profit and employing less costly debt and equity ratios, Rocky Mountain Power could nearly eliminate the entire need for a rate increase.
