Re: *Rocky Mountain Power's 2019 Annual Report of the Subscriber Solar Program;*
Docket No. 20-035-14

Dear Ms. Saba:

The Public Service Commission (PSC) reviewed Rocky Mountain Power's (RMP) 2019 Annual Report of the Subscriber Solar Program ("Program") for the Period of January 1, 2019 through December 31, 2019 ("Report"), filed on March 25, 2020. The PSC also reviewed the April 24, 2020 comments provided by the Division of Public Utilities (DPU) and the Office of Consumer Services (OCS), and RMP's May 11, 2020 reply comments.

DPU and OCS recommend the PSC acknowledge the Report and both parties identify Report enhancements and corrections. The DPU recommends RMP: 1) include in future reports the beginning balance, annual additions, annual interest, amortization, and ending balance in the "Utah Liability Account Balance Reconciliation" section of Exhibit A and the liability account analysis provided in RMP's response to Data Request 1.1; and 2) update the cost model to reflect current tax laws. DPU states the Program continues to be 100-percent subscribed and is running better than expected.

OCS recommends the PSC direct RMP to include in future annual reports the kWh and corresponding dollar amount charged to the EBA for that year and supporting details for the liability account balance.

In its reply comments, RMP provided updated Report Exhibits A, B, and C addressing all of DPU's and OCS's recommendations and committed to continue to work with stakeholders to ensure future reports include the desired format and supporting details.

Correspondence from Gary L. Widerburg
Docket No. 20-035-14
