RE: PacifiCorp's Lifeline Rate Program (Revised), Docket 99-035-10

Issue:

On July 12, 2000 the Division of Public Utilities submitted a Lifeline Stipulation, and draft tariffs to the Commission for review. Subsequently, PacifiCorp requested several changes in the stipulation which clarify the purpose of the Lifeline Account. The Division now submits the revised Lifeline Stipulation to the Commission for approval. The changes are underlined for easy identification. The Division has submitted the revised stipulation to the other parties and no party has objected to the changes. The draft tariffs remain unchanged.

Recommendation:

The Commission's May 24, 2000 order required a lifeline rate to be implemented within 90 days. In order to meet the Commission's time frame, the Division requests that the Commission review the Joint Lifeline Stipulation and Electric Service Schedule No. 3, and Electric Service Schedule No. 91. and issue its order approving or modifying the stipulation and/or tariffs by August 22, 2000, with an effective date of September 1, 2000.
