Subject: Rural Rate Case

I would like to thank the PSC and its staff for the even handed decision regarding the rural users cost for service rate case. You have restored my faith in the system.

On another note, please address Questar's green sticker campaign which has floundered. To date, I have read that less than 50 per cent of Questar's customers (after 8 years?) have received the sticker. There seems to be no sense of urgency regarding this as the PSC has not addressed this issue fully. The PSC's inaction has allowed Questar to continue to pass on the dubious costs of processing the gas. They could care less if it is ever resolved. For the sake of all rate payers, please look at the flawed green sticker decision and campaign.

Sincerely,
 Kevan Aegerter
 West Jordan, UT
