Jim,

"The primary responsibility of the Commission is to ensure safe, reliable, adequate, and reasonably priced utility service. It conducts hearings and investigations of utility company operations in order to determine just and reasonable rates for service. The Commission strives to protect efficient, reliable, reasonably-priced utility service for customers, and to maintain financially healthy utility companies. These goals are attained through the regulatory decisions the Commission makes and through rules it adopts. "

You just approved a 23% increase.....Reasonably priced utility service?.....You are supposed to strive to protect reasonably price utility service for customers. That would be me. Please e-mail me personally and tell me how you have accomplished your responsibility with a 23 % rate increase.

I look forward to your response.

Mr. Scott Pitkin
