Subject: Therwise

To Whom it may concern,

I am writing to express my gratitude for the Therwise program. We have noticed a 2-3 degree difference in our thermostat setting since having additional insulation installed. This is awesome for us as we will be using less energy, but we are also excited for the effect it can have in conserving energy as a whole. My concern is that a reduction in the rebate amount will not allow others to receive the same benefit at a time when things are tight and when we truly must find ways to conserve energy resources to protect our environment. Please reconsider and make this available to more people.

Sincerely, Randy K. Foulger
