Subject: Fwd: Rebates for insullation

Please do not change the way the rebates are given or the amount available for upgrading homes insulation. I recently had my home done and I am very happy with the service I was provided. If the rebate program is changed people like me would never have been able to upgrade our homes due to the cost and logistics involved. The way it is set up now allows companies to provide this service with little to no out of pocket cost to the homeowner. Thanks.
