Sales of Property. For the Base Year, the prior Historical Year, the Test Period and To Date, information showing whether the utility sold property, in which the proceeds for a property, which alone, or for multiple properties, which in the aggregate, would be Material. If so, for each such sale identify the property sold; whether, when, and in what manner it was included in rate base; show details of how the gain or loss was calculated; indicate when the sale occurred; and explain how and whether the utility is treating such gain or loss in its application. For sales in which the proceeds would be Material, individually or in the aggregate, provide a list of any properties currently offered for sale and those projected to be offered for sale through the end of the Test Period. The property sales information may be limited to sales of property that had been or are included in Utah rates while in service.

Answer: Questar Gas did not have any sales in excess of the material amount (estimated at \$330,000) for the periods in question.
