Re: Docket No. 16-057-T01 In the Matter of Questar Gas Company's Proposed Tariff Revisions

Dear Mr. McKay,

On January 28, 2016, Questar Gas Company (Questar) filed proposed revisions to Page 8-17 of its Utah Natural Gas Tariff PSCU 400 (Tariff). The revisions include changing the carrying charge interest rate presented in Section 8.07, Calculation of Carrying Charge, from 4.51 percent to 4.45 percent and updating the advice and section revision numbers on Page 8-17. In addition, the effective date of Page 8-17 was revised from July 1, 2015, to March 1, 2016.

The Division of Public Utilities (Division) submitted its action request response on February 3, 2016. The Division determined the proposed 4.45 percent carrying charge was correctly calculated pursuant to the Commission's April 29, 2015 Order on Carrying Charges in Docket No. 14-057-32, In the Matter of a Request for Agency Action to Review the Carrying Charges Applied to Various Questar Gas Company Account Balances. The Division notes the administrative changes to Page 8-17 are incidental to revising the carrying charge interest rate in Section 8.07 and appear to be correct. The Division recommends the Commission approve the revisions to Page 8-17 as filed.

Based on the Commission's review of Questar's filing and the Division's comments and recommendation, the Commission approves the revisions to Page 8-17 of Questar's Tariff filed on January 28, 2016, effective March 1, 2016.

Sincerely,

/s/ Gary L. Widerburg
Commission Secretary
