Re: *In the Matter of Questar Gas Company's Energy Efficiency Reports, 2017*; Docket No. 17-057-10

Dear Mr. Parker,

On March 27, 2017 Dominion Energy Utah (Dominion) filed its Energy Efficiency (EE) Report for the Year Ending December 31, 2016 (EE Report). On June 19, 2017, pursuant to the PSC's January 16, 2007 Order in Docket No. 05-057-T01,<sup>1</sup> the Division of Public Utilities (DPU) filed a memorandum addressing the EE Report.

The DPU's memorandum presents a summary of Dominion's EE programs, compares the 2016 EE program year end actual results with 2016 EE budget and forecasts approved in Docket No. 15-057-16,<sup>2</sup> presents the total resource cost (TRC) test results for the various components of Dominion's EE Program, and provides information on the status of the EE Account 182.400. The DPU notes the TRC Test benefit/cost ratio for all EE programs is 1.0. The DPU requests that Dominion discuss the EE Report's results and EE program trends at a future 2017 Advisory Group meeting. On June 22, 2017, the PSC issued a Notice of Filing and Comment Period, inviting comments and reply comments on the DPU's memorandum. No comments were filed.

The PSC commends the DPU for its comprehensive analysis and concludes its memorandum complies with the January 16, 2007 Order. The PSC supports the DPU's continuing efforts to work with Dominion to ensure the EE Report remains a valuable means for monitoring and examining energy efficiency and cost-effectiveness issues.
