

OCS 1.03:

How many of the 200 capacity resource portfolios referenced in line 57 of Mr. Mierzwa's testimony include some form of on-system storage (as defined in 1.02, above)? For each, please:

- a. Identify the NGDC;
- b. Identify on-system storage by name and location;
- c. Indicate whether the NGDC owns and/or operates each identified storage facility; and
- d. Describe the benefits of such storage to the identified NGDC.

RESPONSE:

The capacity resource portfolios referenced by Mr. Mierzwa are identified in Attachment 1.03, as are the on-system storage facilities operated or owned by the NGDC, and the number of occasions Mr. Mierzwa has reviewed the NGDC's annual design day forecast. The benefits of on-system storage to each identified NGDC is that it assists in meeting the projected design day demands of the NGDC's customers. The name and location of each on-system storage facility is not maintained by Mr. Mierzwa. See Attachment 1.03 for additional detail.

Annual Design Peak					
NGDC	Number of Reviews	On-System Storage			Facility Name/Location
		Underground Storage	LNG	Propane	
National Fuel Gas Distribution Corporation	17	–	–	–	
PECO Energy Company	2	–	x	–
