

Qualifications of Abigail Thomas

Current Responsibilities

As an Engineer 3 in the Commercial Support group, I am responsible for overseeing activity in the industrial measurement area. I also focus on day-to-day operations and process improvement for our transportation customers. I am also the lead of the company Biogas team.

Prior Responsibilities and Experience

I was first employed by Dominion Energy in 2006 as an Engineer in the System Operations and Analysis department for Questar Pipeline. I worked on analysis of gas operations and modeling future expansions. I helped bring online the business system that runs capacity, contracting, nominations, allocations and billing processes.

Educational Background

I received a Bachelor of Science degree in Mechanical Engineering from Brown University in 2003. I am a registered Professional Engineer (PE) in the State of Utah.
