Subject: Paradox Pipeline

Dear Mr. Rutherford:

I am in receipt of your email dated August 20, 2019. This is to confirm that Paradox Pipeline will not be placed in production for a minimum of 6 months it may extend to 24 months.

Pursuant to an order by Public Service Commission the Pipeline has been shut in since beginning of June 2019, as such Wesco Operating will continue venting approximately 12,000 MCF per month of natural gas at their processing plant, additionally we have been advised by Dead Horse Oil Company LLC, that they have shut down the processing plant and the wells in Greentown as they do not wish to vent natural gas.

Dead Horse Oil Company is currently in the process of engineering transfer of the compressor station upstream of the Greentown interconnect as to reduce the operating pressure in the Pipeline. This change in operations will take some time.

Northwest Pipeline will be informed at least 30 days prior to commencement of operations.

Sincerely,

A handwritten signature in black ink that reads "Tariq Ahmad". The signature is written in a cursive style.

Tariq Ahmad
