

P.S.C.U. Docket No. 19-057-31  
OCS Data Request No. 1.06  
Requested by the Office of Consumer Services  
Date of DEU Response December 30, 2019

OCS 1.06: The Company indicates that two open house have been held in Eureka to discuss bringing natural gas service to the area. What type and level of detail of information was provided regarding the cost of changing out or modifying appliances and or equipment to utilize natural gas?

Answer: The printed information used at the open houses was included in DEU Exhibit 1.04. Customers were told that they would be responsible for costs beyond the meter. There was no specific detail given since each home would be different. Some homes will have appliances that can be converted from propane while others will need to replace appliances. Some homes are already plumbed with black pipe, while others are plumbed with copper, which would need to be replaced.
