Wexpro Matters Update

Wexpro Operations COVID-19 Update

Wexpro Operations has taken multiple steps to prevent employee exposure and to ensure reliable gas delivery

January 2020 – Pandemic plan is drafted and finalized with contingency planning to ensure production will be maintained

March 10, 2020 – All field office doors were marked with a COVID-19 poster setting the expectation of hygiene and visit by appointment only

March 11, 2020 – Operations conducted a meeting to review COVID-19 contingency plan, with all supervisors and office based employees

March 12, 2020 – Wexpro field operators began taking individual vehicles home to avoid pool vehicle travel, reducing group exposure

March 13, 2020 – Wexpro began teleworking for office based employees to reduce group exposure

Wexpro Operations is currently working full staffed with no impact to production
