Subject: 385 Area Code Overlay

It would be smart to think ahead with the amount of phone customers that are around. I have had an introduction to telecommunications in college. I even learned that it was important to think about the future in telecommunications too. I wonder whom of you thought up this idea of dialing 10 digits instead of actually creating another area code or what so ever the story is.

Maybe I do not understand, but understand this:
TO THINK ABOUT THE FUTURE FOR ONCE!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
