Re: Docket No. 09-R312-01: Waiver of the Requirements of R746-312-16(2) for
Calendar Year 2009 Data

Dear Mr. Larson:

On June 2, 2010, Rocky Mountain Power, through a verbal communication by David Taylor, requested Commission clarification of the reporting requirements contained in R746-312-16(2). This provision of R746-312, "Electrical Interconnection," requires public utilities to submit, by July 1 of each year, an annual report of specific information for the previous calendar year. As R746-312 had only recently been made effective Rocky Mountain Power indicated it may not have not been collecting all of the requisite information during the previous year.

Since R746-312 became effective on May 1, 2010, and the reporting requirements in R746-312-16(2) pertain to data collected during the previous calendar year, the Commission finds it reasonable to waive the reporting requirement for the reporting period of calendar year 2009. Since there is ample time before the calendar year 2010 report is due, however, we believe public utilities will have sufficient time to collect and provide all of the calendar year 2010 requisite data by July 1, 2011.

Please feel free to contact me if you have any questions regarding this notification.

Sincerely,

/s/ Julie Orchard
Commission Secretary
