

August 9, 2013

The Honorable Kimberly D. Bose Secretary Federal Energy Regulatory Commission 888 First Street, N.E. Washington, DC 20426

RE: *PacifiCorp* Errata to Offer of Settlement Filing Docket No. ER11-3643-____

Dear Secretary Bose:

On February 22, 2013, PacifiCorp, on behalf of itself and the other parties, submitted an Offer of Settlement ("Settlement Agreement") to the Federal Energy Regulatory Commission ("FERC" or the "Commission") in the above-captioned proceeding. The Settlement Agreement resolved all issues between and among the signatory parties and the other parties in this proceeding. On March 26, 2013, the Settlement Judge certified the uncontested settlement.¹ On May 23, 2013, the Commission approved the Settlement Agreement, finding the settlement to be fair and reasonable and in the public interest.² On June 13, 2013, PacifiCorp filed its compliance filing to incorporate into PacifiCorp's Open Access Transmission Tariff ("OATT") the approved tariff revisions from the Settlement Agreement. This compliance filing is still pending before the Commission.

PacifiCorp has discovered an error in the filed version of one of the appendices to the Settlement Agreement. Appendix 16, the Loss Calculation, included, among other things, a two-page spreadsheet identifying (i) Recalculated and Adjusted Received and Delivered Energy ("Page 1"); and (ii) Transmission and Distribution Losses Adjustments and Allocation ("Page 2"). In the filed version of Page 2, the value for the input cell labeled "DISTRIBUTION: Sales to ultimate consumers distribution" was inadvertently omitted. The cell should have been populated with the value 40,177.³ Derivatives of this input value were used in the calculation of the "Transmission loss rate @ delivery" on Page 1. As such, the omission on Page 2 resulted in a calculation for the transmission loss rate of 0.07097 in the filed version of Appendix 16. However, including the appropriate value for distribution sales results in the correct transmission loss rate calculation of 0.04259; this value aligns with the transmission loss factor of 4.26% in

¹ *PacifiCorp*, 142 FERC ¶ 63,023 (2013). ² *PacifiCorp*, 143 FERC ¶ 61,162 (2013).

³ The amount is in thousands of MWh.

Schedule 10 of PacifiCorp's OATT. A corrected version of Appendix 16 is included with this transmittal letter.

Notably, PacifiCorp has confirmed that the most recent version of Appendix 16 provided to all parties prior to their respective execution and/or approval of the Settlement Agreement included the appropriate information on Pages 1 and 2. As such, this error was limited to the version of the Settlement Agreement filed at the Commission and, therefore, no action by the Commission should be required. PacifiCorp is making this filing at this time to correct the record in this proceeding. In addition, in light of the calculations in the correct Appendix 16 supporting Schedule 10 of PacifiCorp's OATT – which remains accurate – no changes to PacifiCorp's OATT or any customer invoices are required.

PacifiCorp is serving this errata filing on the following: (i) all current OATT transmission customers; (ii) all intervening parties to the above-referenced proceeding; (iii) FERC Staff; and (iv) each of the state public utility commissions regulating PacifiCorp's retail service operations.

If you have any questions, or if I can be of further assistance, please do not hesitate to contact me.

Respectfully Submitted,

/s/ Mark M. Rabuano
